About

Richard hails from Tulsa. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinals!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a "length-limited" conversation!

Work Experience

Pied Piper

CEO/President

2013 - 2014

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

- Build an algorithm for artist to detect if their music was violating copy right infringement laws

- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

Education

Bachelor
Information Technology
University of Oklahoma

2014

Projects

Video compression for 3d media

http://en.wikipedia.org/wiki/Silicon_Valley_(TV_serie

Innovative middle-out compression algorithm that changes the way we store data.

Skills

- **Web Development**

    - HTML
    - CSS
    - Javascript

- **Compression**

    - Mpeg
    - MP4
    - GIF

Interests

- Wildlife ([Ferrets](#))

References

It is my pleasure to recommend Richard, his performance working as a consultant for Main St. Company proved that he will be a valuable addition to any company. - **Erlich Bachman**
